The Trump Network

If you don't already know it Donald Trump has put his name on a network marketing company! He is not endorsing it...he owns it! Today you are going to hear why he did this, what is the product line, a little about the compensation structure of his new company and how the timing of this opportunity for anyone who joins right now will forever change the landscape of your financial future.

Before I get started I would like to introduce myself. I think it is important to put a face with the name. My name is Treasure Milinovich and I am the co-founder of the Automatic Wealth Team. I bring to this opportunity 4 successful years in network marketing, I have a background as a yoga teacher and am a certified Life Success Consultant with Bob Proctor of the Secret. I am the mother of 3 small children; I point that out because I want everyone to understand that I am an ordinary person that has had some extraordinary success. I don't have any special skills, I am not smarter than the average person I just know what I want out of life. I want each one of you to understand that this business will work for anyone...anyone that can see the vision, put in some time and some energy and have your life changed forever! In addition to learning about the trump network today. You are also going to get introduced the Automatic Wealth Team and how the power of a team will help you to propel your trump network business faster than you could ever do own your own.

You have to understand that it is of the greatest importance that now more than ever before in your life you MUST take decisive and quick action. As you read this today we have on a few short weeks before the official launch of the Trump Network. That means that anyone that joins right now has the opportunity to be one of the 7 figure earners in this company within the next 12-18 months. The Trump Network Will be the largest network marketing company in history and you have found yourself at the very beginning of it all! I feel as though everything that I have done up to this point has led me to this very position and that is the same for each one of you. As I said I have been successful in Network Marketing, but I was still looking for that company where I was one of the fortunate few to be in at the very beginning. This is that company! This opportunity will be great for many years to come but it will NEVER be as good as it is right now. We all know that Trump doesn't do anything small and he fully understands the power of his name with the power of network marketing.

The Power of the Trump Brand

The Trump Brand is synonymous with worldwide business success. This is not just a phenomena in the US....this is a worldwide brand.

Of course we all know about Trump's famous Real Estate portfolio. But many people don't fully understand the scope of his success.

He has a hotel collection that spans throughout the globe. From New York

and Chicago to Hawaii and coming soon in places like Scotland and Dubai. He owns golf courses and country clubs throughout the world.

And of course he is one of the most recognized media celebrities in the world. With the hit show the Apprentice, Celebrity Apprentice and the Miss Universe, Miss USA & Miss Teen USA pageants. I could go on and on here. The point is this man knows how to use his name to create wealth. And now you get to use his name to create your own fortune!

For you to understand how Trump came to the Network Marketing industry I want to give you all a bit of background. Some of you may know that Mr. Trump (and Robert Kiyosaki) have been quoted as saying that if they had to do it all over they would make their fortune first in the Network marketing arena. Well, since that time marketers all around the globe have been using that quote. A company by the name of ACN was smart enough to get Mr Trump to endorse their company and they paid him \$1 million to speak to a group of their distributors. Donald went and did his normal presentation to this group at Madison Square Garden and then went back to his life building the Trump Brand. Well about a year later ACN invited Mr Trump back to Madison Square Garden to speak to them again. Donald didn't fully understand this...they explained to him that he had rallied the troops and that their sales had skyrocketed! So he went and spoke to an even larger group this time at Madison Square Gardens but this time on his way back to his office he made a phone call that would eventually bring us to this place we are right now. He decided that day that there was more to this Network marketing industry than met the eye and he wanted in. So he put together a group of individuals to make the decision as to whether or not he would start his own or find a small company and re-brand it.

The Introduction

Not long after he made the decision to move into the Network Marketing arena he found a company named Ideal Health, a small company out of Boston and he was introduced to the founders; Todd and Scott Stanwood and their long time business partner Lou DeCaprio.

These men got their start as NuSkin distributors back in the late 80's and found themselves at a similar position within that company that we find ourselves today. At the beginning of a trend that would lead them to earning 100's of thousands of dollars per month. They became multi-millionaires while they were still in their 20's.

After making their millions with Nu-skin they decided to branch out on their own and had the fore thought to get involved with customized vitamins. They made a strategic alliance with the premier lab in the U.S. Metametrix, outside of Atlanta and developed a customized nutritional supplement for the public. We will discuss more about the products in a moment.

I want you to focus your attention on this graph for a moment because this is very important to you and your future. This graph represents the growth curve of companies as they move toward the \$1 billion dollar mark. As you can see you are getting into this company BEFORE the rise of popular growth. As of April of this year there were only 3,000 distributors for Ideal Health after 12 years in business. After Donald Trump signed the papers to buy it within 2 short months there were 10,000 distributors and 2 months after that (right now) it double to 20,000 distributors. Donald Trump has a goal of 1 million

within the first 18 months as the Trump Network. You have to ask yourself what part of that share do you want for yourself and your family's future?

This is how Multi-millionaires are made in this business! The time is now and you are here for that very reason.

Donald J Trump has been quoted as saying, "It's time for all of us to diversify our assets and take back the American Dream." What is your American Dream? Did you think it was all but dead within these tragic economical times? The time has never been better to reclaim those dreams!

The Products

The Trump Network is poised to compete with the likes of Proctor Gamble with product lines that are set squarely in multiple multi-billion dollar markets.

Health and Wellness(Customized Vitamins) - \$28 Billion Vitamin Industry

Multivitamin Based on Your Body's Needs

Your body is unique. The bio-nutrients it needs for optimal functional health may be different from those that someone else needs.

That's why ordinary multivitamins don't cut it. Multivitamins from the drugstore, and expensive supplements from nutrition and health food stores alike, can leave you with too much of some nutrients, too little of others, or none at all of other particular nutrients your body needs.

The simple truth is that "one-size-fits-all" multivitamin cannot provide you with optimal nutrition because they are created for a hypothetical "average" person. No such person exists.

On top of that, many ingredients in drug store brand multivitamins are in hard-to-absorb forms, or their ingredients are isolated from their synergistic nutrient partners—facts which can greatly reduce their effectiveness.

Ideal Health's unique [Custom Essentials](#)[®] are a customized formula of the [highest quality nutrients](#) chosen for your body's unique needs based on the results of a sophisticated test (the [PrivaTest](#)[®]) that looks at metabolic markers in your urine.

QuikStiks – Mood Infusion Beverages **\$44 Billion Coffee/Energy drink Industry**

Botanical Infusion Beverages

Modern nutraceutical science has identified many naturally occurring plant-based substances that have a profound effect on human health and

metabolism. The challenge for Ideal Health was to create a delivery method for these powerful botanicals that was physically appealing, good tasting, convenient and fun. The result? Ideal Health's QuikStik™ brand Botanical Infusion Beverages...

Convenient. Carry a few in pocket or purse for use anytime!

Delicious. Just mix with pure water for a great tasting “pick-me-up” or “calm-me-down” beverage whenever you feel the need.

Effective. Formulated with natural bionutrients known to affect human health and metabolism without unwanted side effects.

Three great flavors. Three scientific formulas.

Just break open a QuikStik™, mix with a bottle or glass of pure water, and you've got a delicious, mood enhancing drink to help you through any part of your day. Choose from three delicious flavors, each with its own special blend of botanicals.

WindUp™ in the morning gets you going with the nutrients your body really needs, infusing your brain with the essence of clarity.

ReWind™ in the afternoon brings you back from droopiness by replenishing depleted nutrients and infusing your body with the spirit of renewal.

UnWind™ in the evening infuses you with naturally relaxing bionutrients, to help you unwind without taxing your liver.

Silhouette Solution - \$50 Billion Weight Loss Industry

Rapid, safe, lasting weight loss is now *within your reach!*

The Silhouette Solution program is the first weight loss program that will work for you where all other weight loss programs have failed. Period. That's a strong statement. We say it with absolute certainty because we've spent years designing a program based on the real, scientific, physiological and psychological causes of excess weight. It's a program *virtually anyone* can follow to achieve rapid, safe and lasting weight loss—without hunger pangs or the need for super-human willpower.

The Silhouette Solution is based on work that's been extensively reviewed by the National Institutes of Health (NIH), the Institute of Medicine and used in different forms by many high-cost medical weight loss clinics. With this program, you eat LOTS, you won't be hungry, and the extra fat will just fall away, with or without exercise (though exercise is always good)!

Then, once you've dropped your initial weight, we transition you to a program pioneered by Harvard's top weight management doctor, Dr. George Blackburn, so you can learn to keep the weight off once you've achieved your goals – and most importantly, stop your body from trying to return to its prior weight.

Remember, it's not just about looks. There are many other huge benefits that come from “downsizing.” Dropping as little as 10% of your body fat can reduce disease risk significantly. Many people report better blood sugar control, lower cholesterol, lower blood pressure, less joint pain, improved energy, better self-image, and greater confidence! The list could go on and on.

***The Trump Network also has immediate plans to move into Anti-Aging Cosmeceuticals, “Green” Home Care Products & Childrens Performance Products including healthy food and snacks.

Formulation: Developing launch materials and product lines.

Concentration: Field leadership starts to emerge and sales start to climb.

Momentum: Only a very few lucky companies will hit this phase. This is rapid geometric growth. When this happens the efforts of everyone involved are magnified, meaning that if you put in 1 x's the effort you will receive 20-30 x's the return.

Stability: This phase gives you and your family residual income for a lifetime

The Trump Advantage

There are 2 things that have never occurred in the 70 year history of the Network Marketing Industry.

1st – Most industries have 2 Or 3 companies that take the vast majority of market share.

Ford, GM and Chrysler with the Car Industry.

Microsoft, Dell & Apple in Computers.

There are over 1000 companies in Network Marketing and not a single 1 has double digit market share. Companies only have 2, 3 or 4% market share.

Why is that? No central leadership! All of these Network Marketers are going in different directions.

No one in the US and possibly the world could mobilize the Network Marketing Leadership better than Donald Trump. Other companies that enjoy 3 or 4% market share were able to capture a few leaders, however the rest never heard of it or were not interested.

The name Donald Trump mandates that **ALL** leaders must take a look at this company and decide if they will ride the wave with Trump or compete against him.

Donald Trump will take this company to the mainstream media and everyone in America and the world will know about this company!

2nd – There is a segment of the population in the tens of millions that have never accepted Network Marketing as a legitimate method of merchandising. No matter what you brought to them they would say, “if this is one of those pyramid schemes I don’t want it.”

No one in the US could capture the minds of the public and convince them of the credibility of Network Marketing more than Donald Trump.

His name means business and when he introduces the United States and the world to his new business people are going to listen!

This is simply not like any other opportunity that you have ever been introduced to!

We have a system of duplication that can work for everyone!

One major cause of failure in Network Marketing is lack of training and support. This is NOT a worry when you join the AWT. WE have brought together a team of driven, passionate, positive, successful people with diverse marketing backgrounds to ensure that we are building the very best team in the Trump Network. You will have access to all of our own marketing materials. Everything that we use successfully we will share with all members of the AWT.

It is said that “Successful people do what unsuccessful people are unwilling to

do.” You have the opportunity of a lifetime staring at you right now. This is truly a moment in your life where you either go for it or get left behind.

Come join us in Miami for this once in a lifetime launch!

If you are sitting there thinking that you will “check it out”, “see if it works before I fully commit”...you will be sitting on the sidelines. People are joining at an alarming rate and you want to get in before the million more that will join...not after!

Donald Trump did his due diligence and staked his name, his reputation, and his money on this company. You now get to piggy back off all of that he has put up and build your own Trump network business using the power of the Trump Brand. The time is now! You are here at the very beginning...but time is ticking! Don't waste another second!

And Look at all that we additionally provide to you that will skyrocket your business into the highest levels of success.

What People Are Saying...

The system and unpatrolled support is entirely different than anything else out there. I went from "miserable failure" to "ultimate success story" in under a year. This one-of-a-kind system included absolutely everything I needed to start making more money than I ever imagined possible. My dream has far been fulfilled and now I'm reaching for the stars!! ---Lainna Dobosz

I spent 19 years building a successful career in Marketing & Advertising, working hard making other people rich and watching my own dreams of achieving personal and financial freedom move further and further out of reach. I finally realized my future is in my hands and with a burning desire to change my life and go after my dreams --- I've done it. After just over 4 months in this business, I've just about replaced my corporate income and now have the personal freedom I want. I have a new sense of accomplishment and achievement and the satisfaction of knowing I'm truly touching other people's lives in positive ways. helping them to also achieve their vision of freedom, financially and personally. I'm a testament that this simple system works and am now creating the life I've imagined. -
Cindi Houtz

I have been involved in a few opportunities, but this one was different from day one. The ease of lead generation and the number of people that seem to be literally lining up to join this opportunity make this business in a league of its own. The fact that our owner is a world famous business icon has a lot to do with it, but behind the scenes, you will find unbelievable training and support. -Stacey Hall

I am absolutely

astounded. I have never been involved with a team like this that is set so well for anybody I mean anybody who is willing to learn. FAILURE IS NOT AN OPTION HERE --

You have a remarkable website and intense training! That is very generous! Thank you!
