rent or trade your e-mail address. Ever!

THEN TAKE

2 - STEP TWO

Think very carefully about these questions
before you answer...

Are you looking for constant trading results?

Are you tired of being burned with false promises?

Are you tired of buying day trading products that do not
work?

Would you like to get involved with, and learn from, traders
that have been highly successful with proven track records
for a long period of time?

Would you like to trade with lots more confidence?

Would you like to be alerted to accurate, precise trades that
have a high probability of success?

Would you like to be provided with trade picks aimed at
generating profits.

Would you like an ongoing trading education?

Are you frustrated because of your prior lack of consistency
when trading?

Would you like to be looking over the shoulders of an entire
group of day trading pros as they trade each day?

Would you like to be EARNING while you are LEARNING?

If You Answered YES
To Any Of The Above Questions

To achieve your consistent day trading profits

Join Our High Power

Futures Day Trading Community

It's just like you are sitting right in the middle of a very active live day trading room (because you are virtually) filled with top expert, highly successful day traders.

And each highly experienced trader in the room is allowing you to look over their shoulder as they trade... in real time.

Our expert traders provide trade signals to our subscribers as well as education regarding chart patterns, trading methods, and many other informative topics each and every trading day.

Each day we will attempt to make \$500 minimum for that day trading the emini futures contracts. That is our goal each and every day.

Our trading room provides you with a text chat function that enables you to ask questions. IT has an audio component as well to LISTEN LIVE to our traders as they talk about the market, call out trade signals, and give traders educational guidance.

The room also has video capabilities which enable our subscribers to SEE the charts the traders are looking at IN REAL TIME. They see exactly what the traders see. They can see the traders draw lines on the chart, circle chart patterns, and many other things that will help them understand the market.

You are able to ask questions to our traders and our traders will respond to each and every question with a text chat, audio, or visual answer.

We provide daily video updates to keep you up to date on the major market moves while we provide intraday signals that can enable you to profit from more micro movements.

We also provide weekly video updates to keep you aware of news that may shape the market in the week ahead so you can better prepare for the trade setups and anticipate moves BEFORE they happen.

We also provide live education and live answers to questions from students each and every day from market open to market

close.

All of this enables you to learn at your own pace, ask questions from beginner to advanced while still being able to follow the trading signals we use to make money in the market. Once again, EARN while you LEARN.

**No delayed recordings,
no “well we would have bought here or
we would have sold here”,
you see it all happen LIVE.**

The professional traders in the room hold nothing back from you.

They share their picks with you before they trade.

They provide you with trade suggestions that they are going to do in their own accounts.

You can follow the professional traders suggestions while at the same time you are learning how to spot high probability trades.

This provides you with the ability (if you copy their trades) to potentially make money following our suggestions while at the same time learning how to spot high probability trades that can make you consistent profits.

They show you the actual trades as they are made.

They share with you why they selected those trades.

Can you imagine first studying everything that the professional day traders in the community room are doing (in real time as they do it)...

And then being able to make \$500 on a trade or \$1,500 on a trade yourself and just say “ok I am done working for today, going to the beach or the golf course, or whatever”.

Successfully trading the markets sets you free.

The benefits you receive are that, if we hit our daily goal of course, you will be able to truly be free. Many times we have hit our goal by 10:30

am. Imagine hitting that goal most days that early then being able to go do whatever you wish for the rest of the day. Many of our students only work an hour or so per day. After that they can continue to trade if they wish or they can go play golf, play with the kids, go to the beach, go to the mall, go do whatever they want. When you trade successfully you truly are completely FREE.

You also get a daily video that summarizes the market that particular day. Why was it up or why was it down, what trades did we do? Why did we do those trades? This will help further your education as well.

As if that is not enough you also get a weekly update that will prepare you each and every Sunday night for the coming week ahead. It will contain all major news announcements and how they may impact the market. It will contain trade ideas and general market commentary not available anywhere else.

How much will all of that help you profit from day trading?

How much is all of that worth to you?

Could day trading ever get any easier than this?

**With all of that help and education
It must cost a fortune to be a member**

**Does subscribing cost
\$5,000, \$10,000, \$25,000?**

Actually not at all

**You simply sign up for 1 month
there is NO long term contract
no expensive course
just \$197 per month
for everything**

if you then feel that it is not for you... simply cancel

How easy is that?... how safe is that for you?

LET'S RECAP WHAT YOU'LL RECEIVE:

1. You get access to a complete trading room with text chat, audio chat, and video screens where you can view our traders screens. You can ask questions and learn how to trade in this room.
2. You get daily video updates that go over each trade setup and also go into detail about what the market did and why it did that during the day (a detailed market recap).
3. You also get a weekly video that will provide you with upcoming news and events that may impact the market. What to expect from the coming week and general views on the market.
4. Daily Video Updates – Included in your monthly subscription is a members area where you can review an archive of video updates that we provide at the end of each day to recap the trades we took on the day and general market comments that will influence our trading decisions for the coming days.

AS ADDITIONAL SUBSCRIPTION BONUSES

You receive these eBooks where you have additional educational resources.

Ebook #1 : Chart Patterns – this eBook goes into great detail about some of the most reliable chart patterns in the futures market. We describe, in detail, each entry and exit point that will likely generate profits for the investor. It provides an education into high probability trading to get you looking for HIGH probability trades rather than just looking for trades. BIG difference between high probability trading and day trading.

Ebook #2: All about Futures – in this eBook we describe what futures are, how they work, how they are traded, the advantages of futures over stocks, and additional benefits of futures. It Describes how futures truly work. You need to have this understanding to make sure you do not trade them in a way that

puts you at a disadvantage.

Ebook #3: Brokers – We go over what are the top brokers, what benefits each broker offers, and student experiences with each broker. This eBook Describes the top brokers that will give you an edge in deciding what broker may be best for your account size, trading style, and trading goals.
