It Is Urgent That You Read On...

Dear Friend,

I have some important questions for you.

Think carefully as you answer...

- **Are you facing the possibility of a divorce, and lying in bed night after night, not sleeping well, stressing, worrying... what are you ever going to do, how will you ever handle it, how is your life going to change?**
- **Are you presently going through a divorce... and worrying about the astronomical costs, and stress, of a typical litigated divorce.**
- **Do you feel like your entire world is collapsing in on you, and you would like an expert to reassuringly, calmly, lead you entirely through it... and show you the best ways to handle everything?**
- **Do you so wish that you had an expert to explain everything to you, to show you all of your options... to help you avoid the potential "land mines"?**
- **You have heard the divorce horror stories... do you worry about property settlement issues... do you agonize over parenting issues?**
- **Do you desire to divorce, and still remain friends with your (soon to be) ex spouse?**
- **Do you have strong feelings of betrayal, disappointment, and/or abandonment?**
- **Do you stress over losing your family structure?**

- **Are you worried over the thought of your children having to grow up in a “broken” family?**
- **Do you agonize over having to make financial sacrifices... and possibly having to loose your home?**
- **Do you panic about your spouse trying to take away your children... take them to another town, or worse yet, to another State?**
- **Do you worry about financial issues, like how to divide assets and liabilities (assets include your home, retirement accounts, bank accounts, possessions, businesses, cars, etc.; liabilities include debts – such as student loans, credit card debts, etc?)**

**If your answer is YES
to ANY of these questions,
THEN YOU MUST READ THIS
BOOK RIGHT NOW...**

**READ IT QUICKLY,
BEFORE THE SITUATION
GETS ANY WORSE.**

I have great news for you!

**There are many effective and inexpensive
solutions to these questions.**

IN THIS BOOK, THE AUTHOR WILL SHARE
THE SECRETS OF THE TRADE THAT HAS
EARNED HIM HUNDREDS OF THOUSANDS
OF DOLLARS.

His Step By Step - How to...

Nationally Recognized Divorce Attorney

Attorney Rick D. Banks

He has counseled
hundreds of couples going
through divorces.

Rick D. Banks is a member of the California Bar Association, Fresno County Bar Association, the Los Angeles Bar Association, the Consumer Attorneys of California, and the Association of Trial Lawyers of America.

He continues his work as a family law, trial lawyer and mediator. He receives multiple referrals from clients and other attorneys.

When working with people who are divorcing, Rick tries to make the process as painless as possible.

He understands the severe emotional and financial burden that people carry while suffering through their divorce. His practice tries to make the entire process as comfortable and friendly as possible.

He is proud of the divorces he has handled where his clients have been able to get what they want — be it keeping their assets or maximizing the support they get.

He is also gratified by the parents he has helped to work out a custody situation that allows for frequent and continuous contact with their children.

Rick is dedicated to helping couples and families through the painful process of divorce.

What Rick is most proud of though, is his ability to assist couples get through the divorce process...

without having to:

**Hire expensive attorneys
and fight ugly court battles
that can destroy your lives.**

I have been a divorce attorney for years; I have counseled hundreds of clients through some of the ugliest, and most expensive divorces imaginable;

I have seen how a "traditional" divorce can destroy lives; I know the tricks that divorce attorneys use to start a fight where there wasn't one before, and then how to keep the fight going until all of the money runs out.

I personally went through a divorce that was one of the most devastating times in my life, so I have personally experienced the pain that a "traditional" divorce entails. However, I know there is a better way! I have also spent countless hours mediating and counseling divorcing spouses where we focus on getting them through the divorce with the goal of remaining friends, and keeping their finances and sanity intact.

I know it works! The goal of my Guide is to help individuals transition from being married to being single in a way that will help them * save their sanity, * save their finances and, * avoid trauma to their children. My goal is to make their divorce as easy, painless and friendly as possible.

In this book, Rick will give you hundreds of tips that will save you

thousands and thousands of dollars.

Unlike most other divorce "guides" or e-books on the market, most of which are written by people with no experience in the law, this Guide is written by a nationally recognized divorce attorney, who knows all of the "pit-bull" tricks and tactics that divorce attorneys use.

The Guide is written in easy-to-read, understandable language; it is written with the goal of helping couples get through a very difficult time in theirs, and their children's lives, without destroying each other, without resorting to a long, drawn-out litigation process, that only enriches the attorneys, and often depletes most if not all of the couple's finances, and leaves them in financial ruins.

This Guide will explore a relatively new option for divorcing couples that wish to focus on the needs of the entire family by preserving some sense of emotional health, normalcy and cooperation for themselves and their children.

YOU MUST HAVE THIS BOOK!

Unlike most other divorce guides/books that merely show you how to get a divorce, or how to make your spouse's life miserable in the process,

this Guide focuses on reducing conflict, and minimizing costs
(both financial and emotional),

tips on **avoiding the "chip-on-your-shoulder" mentality**, and maintaining a problem solving attitude instead.

If you use just one of the many pointers/secrets contained in the book, the Guide will more than pay for itself compared with what you would have paid for just a consultation with an attorney.

This is an ebook on how to have a **friendly divorce**. It describes Costly Misconceptions About Divorce (including child custody, support); it reveals **Mistakes Divorcing Couples Make That Cost Them a Fortune** (one of which is that they don't consider having a friendly divorce rather than a trial). The book describes several Ways to **Reduce the Pain and Expense of Divorce**.

This book has my experience as a divorce mediator intertwined in the information.

This book teaches divorcing spouses how to settle conflicts and disputes such as who gets what and who pays for remaining debts; **how to avoid the circus and war that follows when attorneys are hired**; how the out-of-this-world attorney fees can easily exceed the value of the property the couple might be fighting over; the book The book is both instructional, motivational, and inspirational - one that you will want to share with others going through a divorce.

This book is chock-full of tips and secrets from

a nationally known divorce attorney who has seen it all,

and will offer you information that few other resources like this can.

Studies have shown that
a **typical, traditional divorce**,
where each spouse hires an attorney,
takes 18-months
and
costs \$19,000 to complete

I have taken all the information that has taken me a professional lifetime of helping couples going through a divorce, and formatted it into a single book to help reach out to millions of people. People JUST LIKE YOU !

**This Guide will show you...
how you can complete your
divorce for less than \$500.00**

No matter how unique or specific the user's situation is or how hopeless it may seem, I have a solution to help you get through the divorce with as little pain, turmoil, and as cheaply as possible . I cover the vital topics and give you the crucial information you need to get through your divorce without becoming mortal enemies, and all the chaos and turmoil that comes along with it.

The guide shows you, without attorneys,
how to design an agreement
that can guide your family into the future.

Typically this agreement will cover your finances and, if you have children, their parenting plan and child support.

**We even provide you with
a sample
Marital Settlement Agreement.**

If you choose, they may then have an attorney and/or an accountant review these documents.

**However, I will tell you things
your lawyers won't.**

Testimonials

From Our Satisfied Customers

What People Are Saying...

"I was doubtful at first, but I figured with a money back guarantee, what could I lose in trying the Guide out. How convinced am I? I was able to get my husband to sit down and discuss our situation in a civil manner, and we were able to work out a complete divorce agreement. We then paid an attorney for just a review of the agreement which took him only two hours."

- **Jessica, Liberty Hill, Tx.**

"I wish I had found out about the Guide sooner. My wife and I have spent thousands on attorney fees and have nothing to show for it yet, except lots of hard feelings. We are just starting to go through the Guide, and already the atmosphere is making our lives better."

-**Donald B., Fresno, Ca.**

"Extremely satisfied This is a must have to save your sanity while going through a divorce."

- **Mike K., Ocala, Fl.**

"This book is a must for anyone serious about getting through a divorce and remaining friends. I spent countless hours consulting with attorneys that all seemed to care about nothing but getting their retainers, as well as turning to other books that gave me no real answers. The genuine advice you gave and the instant application of your techniques make this the essential Guide to saving my sanity. I just

wish I would had bought it sooner and saved myself all the hours spent fighting over things that were not worth fighting over. "

- **Jamie B., California**

The cost of this book is less than you would pay for just a single consultation with a divorce attorney.

Just one idea from this book can save you thousands of dollars.

Because this book is written by a nationally known divorce attorney, it's like spending hours and hours with a high power attorney, for just a small fraction of what you would pay that attorney for just the first hour.

The information in this book will be worth many thousands of dollars to you.
