

Let me suggest that you set aside a quiet 30 minutes. Pour yourself a cup of coffee. Kick back into a comfortable chair and thoroughly study our enclosed brochure... every page from cover to cover.

As you are reading through this material please write down any questions that you might have.

Remember - The only stupid question – is one that is not asked

Next time we talk again I will take all the time necessary to answer all your questions and concerns for you, so that you will be in a position to make an informed intelligent decision.

So that we can stay on our selection schedule for your area... I receive notification when your package is actually delivered to you. I will be talking to you once again in about a week from the time that you actually receive this package. Have your questions ready for me.

After fully studying our enclosed literature, if you desire to be considered to be the ONE PERSON that we select to be the Refreshment Center business owner in your area we strongly suggest that you submit your application before someone else beats you to it!

As long as your application is approved - It's Strictly First Come - First Served –
And we then stop interviewing for your area - So Submit your application early

Of course, instead of waiting for my call, you may call me much sooner if you find that your level of interest is extremely high and you would like to explore tying up your area before someone else does.

I can be reached directly at (800) 510-8311 extension #2
