- It chases roaches and rodents out of your house while preventing future pests from entering
- Saves you money... Quickly pays for itself... Nothing to refill, no monthly extermination service needed... less than a penny a week

The "Atomic Pest Repeller"

Is a Heavy Duty Commercial grade Electronic Pest Repeller

That will keep your home TOTALLY free from pests for many years to come

This heavy duty commercial grade unit penetrates deep into Walls, Ceilings, Baseboards, Cabinets, floors, attics and all other places THAT Chemicals, Poisons, Powders traps and other Pest Control Products don't go.

90% of the pests in your home live within your walls... and with The "Atomic Pest Eliminator", you hit Pests where they nest and breed. The "Atomic Pest Eliminator" is designed to go directly to the source and drive the pests far, far away.

After Decades Of Scientific Research, Finally...

This is the only Electronic Pest Control Repeller to use

all **3** of the most powerful repellent technologies

Electromagnetic, Ultrasonic, and Ionic pest elimination
in one heavy duty commercial grade unit

1 - Electromagnetic Pest Control

Electromagnetic Pest Control uses the existing electric wiring within your walls, turning your whole home or office into a giant super powerful "Atomic Pest Repeller". It's similar to making a telephone call, when you speak your voice travels through the phone lines at a certain frequency. Electromagnetic Pest Control utilizes your electric wiring by simply sending a shifting signal through the wire, tuned to radically irritate the Pests Nervous system, causing them to flee as fast as they can. This technology will not affect humans, pets or electronics and doesn't increase your wirings own electromagnetic energy it simply changes the frequency to target small Pests like insects and rodents which easily pick up the changes in the electromagnetic frequencies. It confuses pests Making it difficult or impossible for them to gather food, breed and build their nests, or communicate with each other. The signal is turned on and off every few seconds so the Pests can't build up a tolerance. And, you won't even ever hear it.

2 - Ultrasonic Pest Control

Our "Atomic Pest Repeller" additionally Utilizes a 2nd system... a High Pressure Ultrasonic sound that humans can't hear. If you were a Pest the sound would be extremely uncomfortable, similar to putting your ear right up next to a loud police siren. The Pests react to the sound the same way we would to the police siren or any other loud uncomfortable noise and flee far from the source of audio discomfort. Although Humans and Pets aren't affected by the Ultrasonic Pest Control, Pests are startled, disorientated. The "Atomic Pest Repeller" uses a variable pulse generator, so like the Electromagnetic Pest Control the Pests do not get accustom to the Ultrasonic Pest Control.

3 - Ionic Pest Control

This is the latest in Electronic Pest Control Technologies. It releases negative ions to which the rodents are sensitive to. This technology has been used for years in Air purification. The beneficial negative ions it creates act to destroy harmful airborne pollutants, including bacteria, dust mites and many other unseen pollutants. Ions are ever where in our atmosphere. Negative ions are beneficial ions that penetrate into walls and living areas cleaning the air where ever they travel. Negative Ions are produced naturally by lightning before a storm. They are part of the reason things smell so fresh after it rains. Pests are sensitive to Negative Ions. Long before it starts pouring down rain Pests can sense a change in the atmosphere and they look for shelter. Our "Atomic Pest Repeller" confuses pests and they seek shelter far from the reach of its technology. The ionic technology used in our "Atomic Pest Repeller" not only clean the air but launches Electronic Pest Control to the next level. Ionic Pest Control works in two ways. First the Ions affect the pests directly causing them to seek shelter elsewhere, and secondly by helping clean the air of odors the pests are less likely to be attracted to odors they associate with a food source as a result they will look for food elsewhere.

IT'S A 1 - 2 - 3 - KNOCKOUT PUNCH FOR PESTS

The "Atomic Pest Eliminator" is totally safe
for Kids, Adults, Pets, Food, and Electronics

Not only does our "Atomic Pest Repeller" go to work to get rid of pests,
the ionic feature also cleans your household air of bacteria and other harmful pollutants,
before you breath them in, creating an even more pleasant, safer, and healthier environment for you and your family.
Your home will smell so fresh and clean.

HERE IS WHY YOU DON'T RISK A PENNY

You can feel totally safe in ordering because

we are taking all the risk, not you.

It's so simple... if you are not satisfied... you don't pay for it.

You accomplish that by simply returning it for an unconditional, honest, instant, no tricks, no quibble,
NO QUESTIONS ASKED REFUND.

VERY LIMITED SUPPLY YOU MUST ACT RIGHT NOW
HERE'S THE FULL TRUE STORY...

Economic times are tough everywhere right now and many of even the best manufacturers are hurting for cash for the short term. Because of that, we were able to purchase the entire inventory that the manufacturer had on hand of this top of the line heavy duty commercial grade system... for a real low bargain price.

We are obviously, demonstrating by our super low selling price,
that we are passing our full savings along to you.

When our last system is sold, that's it.

No more until the manufacturer produces more. Then, we won't be able to get the same major discount on our next purchase... which means that your price will be at least double then.

**WE ONLY HAVE ENOUGH SYSTEMS ON HAND TO SUPPLY ONLY A FRACTION
OF THE PEOPLE THAT WE ARE MAILING THIS OFFER TO.**

**SO YOU MUST BUY NOW, AND BUY BEFORE THE OTHER PEOPLE BUYING FROM THIS OFFER,
OR RISK BEING LEFT WITH ALL YOUR RODENTS AND INSECTS... UGH**

KEEP PESTS OUT OF YOUR HOME ONCE AND FOR ALL
