7. To have all the things that you have always promised yourself
8. To lead you every step of the way

**If you've had ENOUGH...
of the same old existing conditions ...**

How long have you been putting up with your not achieving the success that you desire? How many times have you started on the path of your quest for success... each time telling yourself that this time would be different... only to realize that you didn't have the roadmap to actually accomplish it? Have your family and friends secretly given up on your ever accomplishing your success?... how does that make you feel?

**and If...
you are REALLY READY to change your life...**

STARTING RIGHT NOW!!!...

then this will be the most important letter you'll ever read.

If you are truly ready to accept the “roadmap leading you straight to success” that this program will provide you with... this time you will succeed. This time you will be following the same “programming” that thousands of successful people before you have followed. You can do it... all you need is the roadmap... and I will give that to you. Join the ranks of all of the people that I have directly helped find the success that they had been reaching for. Each of their desires for success was different. For some it was wealth... for others it was a particular career... but they all achieved it. Now you have found the program that will lead you into their ranks... get ready to accept it... get ready to welcome it... get ready to enjoy it... get ready for your friends and loved ones to enjoy it right along with you.

HERE IS YOUR SOLUTION

Let me share with you a fool-proof system for getting anything you want: riches, love, life style, fame: EVERYTHING YOUR HEART TRULY DESIRES. And that comes with a cast-iron no quibble guarantee! **THE SECRETS OF OUTRAGEOUS SUCCESS** will teach you everything you need to know... it will lead you directly to the end result that you desire... GUARANTEED.

Here's why.

For the first time ever you'll learn the secrets used by the rich, famous and successful. Secrets that my decades of scientific research have boiled down to a foolproof scientific formula... **that works every single time!** It has worked for everyone that has used it before you... it will work for you.

Now you can achieve the successes that they achieved.. or anything else your heart desires... by following the steps of each simple, clear **step-by-step formula**. Steps that have been proven successful by every successful person before you.

Not only that... but you'll see before you even begin that your path will lead inevitably to where you want to go. One of the biggest benefits in using my system is that you **will know exactly what to do, day by day, week by week.**

You will know with certainty which actions support your dream and will take you towards it, you'll know what actions to avoid because they will hold you back, what steps are really crucial and what steps are relatively unimportant. That will enable you to set whole new priorities in your life.

Remember:

**YOU ARE A WINNER...
AS SOON AS YOU STEP INTO THE WINNING PLAN.**

When your program arrives... what you should do is to find a quite area of your home... sit in a very comfortable chair... put on some low soothing music in the background... pour yourself a cup of coffee (or whatever)... turn on the MP3 player that came with your program, and that the audio portions of the program are loaded into... **AND SIMPLY LISTEN.** Don't do anything... just let me teach you this amazing program.

If finding your dreams, living your bliss, is what you want, then my critical path program will be the most influential instruction course... of your life. This is the most valuable program that you will ever be involved in.

You'll amass all the confidence, satisfaction and self-esteem of a winner, as soon as you embark on the steps I'll teach you. Once on the program you'll fully understand why I say this.

It's not rocket science... it's not mystical... it's not spiritual... it's not one of those "dream it, or imagine it, and you will become it" dribble programs... it's not like any other success program you have ever been involved with... it's the very specific roadmap that every

successful person before you has followed... and many of them never even realized that they were following the exact same steps that all the successful people before them had followed. It took me years upon years of painstaking detailed research to realize, to isolate, the same exact steps being used by successful person after successful person. And they all never realized that they were following the same roadmap. THIS PROGRAM IS THE MOTHER LOAD.

Have you ever felt confused, hesitant, doubtful or nervous about what to do to get the best results, for yourself and for your loved ones? Have you been overly cautious of making changes in your life, because you could be sure how things would turn out if you went in a particular direction?

Well, don't fear that... any more!

**With my audio – superbook
“THE SECRETS OF UNSTOPPABLE SUCCESS”
will teach you everything you need to know.
Absolutely nothing else is needed.**

**Remember the “Yellow Brick Road”
in the movie The Wizard of Oz”?**

It was plain and totally obvious... all Dorothy had to do was follow... follow... follow... the yellow brick road and she'd get to her destination!

She didn't need to make any difficult decisions: just stay on the path!

Well, the system I teach in this totally original program can be likened to the yellow brick road.

It isn't difficult or obscure—it's BRIGHT YELLOW and lies...

RIGHT IN FRONT OF YOU all the time.

What Exactly Is "THE SECRETS OF OUTRAGEOUS SUCCESS"?

It arrives as a set of audios and a video, **delivered on a highly convenient MP3 player**. You can take it with you anywhere and listen to inspiring and practical advice.

Why Portable Media versus traditional media (CDs & DVDs)?

Mobile Lifestyles CDs and DVDs are player-centric, they're limited to space occupied by the CD or DVD player. With portable media, the world is your classroom. With your busy lifestyle you can learn on a plane, on a treadmill or while shopping or doing chores around the house.

Storage and Convenience

A CD holds 74 minutes of audio. A 2GB MP3 player can hold up to 200 CDs. With portable media, you can carry an entire library of your information that you can access anytime and any place.

Continuity and Relationship

CDs and DVDs are closed information systems in other words, you can't add content to them. With this portable media...

Every other week I will be providing you with more content (via downloads), so that your materials just grow and grow. After all... this is the Super System... all that you will ever need for the rest of your life.

There is no risk. I will take all the risk. A full 30 day 100% money-back guarantee

The goals you have are very important to you. They are there to change your life. But remember, a goal is tantamount to making a promise to yourself. I'll bet there have been a few broken promises, right?

**Well, not any more.
Now you have the tools
to fulfill all your promises to yourself.**

Many people set goals and do not believe that they will attain them.

This lack of attainment is simply the lack of structure for attainment. Without structure and form you have nothing but an empty vision. In fact the vision is incomplete without seeing the structured reality of what happens so that you GET this goal.

But when you see the structure and the reality of the goal AND THE STEPS YOU WILL BE TAKING TO ACHIEVE IT, then you will find you get excited. The dream becomes real, it becomes ATTAINABLE... the stuff that creates passion.

It's not just about getting rich. **It's a system that will work for any dream**, from making millions of dollars on the Internet or founding an empire, to putting out a best-selling book or breaking into the movies. **What are your dreams?**... think for a minute... silently express your dreams to yourself. Tell yourself what they are RIGHT NOW. Now imagine them coming true for you... one after the other... think about that. Feel the wonderful feeling building up inside you as you actually can feel your dreams coming true... can you feel that wonderful feeling swelling up inside of you? **THIS PROGRAM WILL GIVE YOU THE POWER TO MAKE THAT HAPPEN.** Don't hesitate, you just have got to get this program... say that to yourself right now... don't allow anything to get in your way of success... YOU ARE WORTH IT... YOUR FAMILY AND LOVED ONES ARE WORTH IT. Do it for yourself, or do it for them... JUST DO IT.

DO IT NOW!

It isn't just a manual. It's a tool... to be exact, **a collection of tools**, researched, developed and in some cases rewritten in a newer context by a medical doctor. Is that relevant? Well doctors are supposed to heal lives. There is nothing quite so healing as effective knowledge which will overcome the misery of failures and

loss. These tools are to enable you to gain the certainty and knowledge to fulfill all aspects of attaining success, whether you want fame, fortune or happiness (or all three, if you've a mind for it).

With its **avalanche of inviting and razor- sharp strategies**, you will be able to identify your REAL dream from amongst all the illusions and capture it into concrete steps which will transform your future from an endless vague horizon to a sharply focused map, with everything you need to succeed marked along the way.

It isn't a "universal plan". It shows you how to capture YOUR future, neatly and uniquely, take control of YOUR life and start moving forwards to that dream. It tells you what you MUST DO, what is merely accessory, what you MUST NOT DO and finally how to recognize what is unimportant, irrelevant and distracting.

In computer terms you could call this...

formatting your life...

the way it should be and **installing the correct software program for what you are trying to do.**

<INSERT POWERFUL MOTIVATIONAL BIOGRAPHY HERE>

Did you ever notice that there is a certain type of person who is a good problem solver? These people are not necessarily professors - or winners of million-dollar TV quiz games but they seem to have a keen mind and a special skill at figuring out what everyone else is missing!

I have that knack and many years ago I turned my mind to figuring out why people are not getting what they want in life, why they are unhappy.

It very quickly became obvious that so-called positive thinking and "affirmations" **didn't really work**. Plenty of people, I knew, had tried this tool and it didn't work for them.

Most of what is being taught I regard as worthless pap. The only people who "succeed" are the gurus who grab your money and they are the ones who get rich, while common folk just get more and more frustrated at lack of results.

Most of the - gurus - are not crooks: they just don't have anything worthwhile to say (but have found they can get rich by promising to show others how to succeed).

Surely, my innate sense of logic told me, there has to be something more basic, an undercut, something more fundamentally logical and constructive that would deliver the goods.

So I started many years of research. After several false starts and repeated test... driving of my method, I came to realize that I had something enormously powerful; and very valuable.

It works consistently,

if you applied it properly, and I'll teach you how.

Every time I use it, I get showers of good results and tons of money; every time I forget, I struggle and maybe fall back! I knew I had all but perfected it.

How did this come about? - - I used as my working proposition that if anyone knew how to make a million dollars or more, he or she would just go ahead and do it. OK, so why don't people just get rich all over the place?

The answer, as you can guess, is that they just don't really know what to do.

They don't know the steps to go through.

There is no yellow brick road, leading to where they want to be.

One or two maybe have an idea or a plan BUT THEY STILL DON'T KNOW WHETHER IT WILL WORK OR NOT.

Facing the unknown is a very scary situation.

It's very hard, surely, to commit your life to a plan of action WHILE NOT KNOWING if it will give you your dream. I don't regard that as a weakness or failing;

I see it as uncertainty, that's all.

"If you do what you've always done, you'll get what you've always gotten"

PHILOSOPHICAL MACHINE

This is really a philosophical machine that creates reality.

It is important to understand this is not just a set of CDs and a book; it's a philosophical - machine, that - obeys the laws of conscious thought and will generate reality as sure as the laws of physics. You put in raw materials (ideas and dreams) at

one end, kick start the engine with fast creative planning, juice it up with energy, strategies and effective action...

and out the other end comes your dream, whatever that may be.

This is as real as a production system as Ford's or Toshiba's conveyor belt for making motor cars.

It can be describe as a unique goal fulfillment design-and-build-it system.

**"FRUSTRATION"... IS YOUR FEELINGS OF...
"I want these things... but how do I get them"?**

Well...

here's EXACTLY how you get them.

STEP-BY-STEP

CUSTOM PROGRAMMED JUST FOR YOU

HERE'S THE REAL QUESTION:

CAN YOU READ A ROAD MAP?

In that case you can get to wherever you want to go! A map is the perfect route finder. You use and trust maps, don't you? This is the same deal:

you don't need to have visited a place to see with certainty that the map will take you there! You can see that it starts where you are, shows you what direction to take, which towns to visit, what roads to take and that these all link up properly and will take you to your end destination.

If it didn't, you wouldn't even start your journey, would you?

That's the magic of a good map: even if you've never been there before, you KNOW you can get to where you want to be. That's what maps are for, isn't it? Incidentally, the map is a good analogy for what happens sometimes when a person seems to succeed just by chance. Well, that's perfectly feasible. If he or she struggles blindly, asking for directions on route, stopping, starting and changing paths as seems best, than at least SOME individuals are going to arrive at the place called riches! It's only logical.

This is totally unique, proven from years of my research. It isn't like anything that has ever gone before. It does NOT depend on the so-called "Law of Attraction", "positive thinking" or anything remotely similar.

The Path To Success Is To Take Determined Action

But I laugh when I see some of these wealthy or famous individuals try to teach what it was that got them where they are.

Most haven't a clue,

frankly, and could not draw anyone else a proper map to save their lives. They just DON'T KNOW how they made their journey.

IN THIS COURSE I WILL SHOW HOW TO DRAW THE PERFECT MAP FOR WHERE YOU WANT TO GO. Even before you take the very first step... you'll SEE it's the right step in the right direction. Then

comes the next step... and the next... and so on. Everything is linked correctly...

and that's my promise to you.

You want to go to millionaire? Or do you want to break into movies? OK, the program will set about drawing the map for you (everyone's map is different, since we will all start from a different place and some will go via plane and auto; others via rail and taxi).

It doesn't matter where you start, how you travel or what destination you choose. IT STILL NEEDS AN ACCURATE MAP! This is so obvious it gets embarrassing writing it. Yet all the motivational courses out there I know are all about imagining yourself in the town you want to visit and that's supposed to take you there. One or two tell you to "think like a traveler"... but never a WORD about how to get there.

Well, that's all over now. Forget about affirmations and positive thinking, especially forget about "The Secret". Just think in terms of maps. Learn to draw good maps and you can have everything you ever wanted.

THE HOAX

One of the silliest hoaxes is that to get rich you need to develop a "millionaire mindset". Can you spot the obvious flaw in this popular notion? Yes, they didn't have a millionaire mindset when they started to succeed they were poor! Many of the get-rich gurus even boast they started out flat broke or crippled by huge debts. So, despite everything they tell you, starting out with a poverty mindset will NOT hold you back. Not if you have the right map!
