**NEIGHBORHOOD
CENTER INDUSTRY IS
GROWING NATIONWIDE
AT A PACE FASTER**

**THAN
McDonald's
HAS EVER
GROWN
IN ITS ENTIRE
HISTORY.**

A new industry has been born!
This entire industry is only about a year old. Pretty soon all people everywhere will find it easier than ever to sell their items on eBay. "AuctionStore.com" is a franchised chain of eBay neighborhood home based centers.

**We are the only company in this
industry that has developed an
unlimited expansion program
for our franchisees.**

**Now you can so
easily grow your business, and**

BUYING items on eBay is fairly straight forward and rather simple to do even for a novice. You “surf” (view) the site and when you see an item that you want, you bid on it. If you win, you pay for the item and it is shipped to you.

However, **SELLING** items on eBay is another story altogether. Selling on eBay is such an involved, time consuming, confusing and intimidating, process, for most people, that of the approximately 150 million registered users on eBay (which is larger than the population of France, Italy, or Germany), a full 92% of them have never sold anything on eBay. Only 8% of all registered eBay users have ever sold anything on the site. That's where our new neighborhood eBay centers come in.

**your profits, as large
as you desire.**

**And without ever
being charged another franchise fee.
No mater how many centers you
open in your territory.**

Our new franchised home based centers make selling on eBay so simple for all the masses

Now absolutely everyone has the ability to sell their items on eBay.

We developed a program to empower each of our franchisees to grow and very easily and very economically open many more additional areas to fully take advantage of this industries skyrocketing growth and profits.

Sorry McDonald's. But just be thankful that these new stores don't sell hamburgers.

eBay neighborhood retail "centers, like ours,
are predicted to **generate higher total sales volume than all of eBay's
already existing 150 MILLION individual registered users combined.**

NO WONDER THAT eBay IS SO ANXIOUS TO HELP US GROW.

Internet Retailer Magazine

(as well as independent industry analysts commissioned by eBay itself to evaluate the potential sales that would be generated by independent neighborhood retail "drop-off" stores)

have each estimated that new eBay neighborhood retail centers, like ours, **will be generating**

**\$10 BILLION IN SALES
ANNUALLY**

Within the next 36 months

other industry experts estimate the eBay centers annual sales potential much higher at

\$20 to \$25 BILLION.

The centers revenue alone would be equal to eBay's entire 2003 worldwide gross sales of \$24 Billion.

Regardless of which estimate is correct...

10 BILLION or 25 BILLION

**This is obviously
the growth industry of the century.**

eBay® is proving to be the most important creation
of such socio-economic proportions in decades.

**eBay is actually changing the way
the entire world is doing business.**
