Have You Ever Wondered How The African Masai Tribe Walk An Incredible 30,000+ Steps A Day Without Even Getting Tired Or Injured?

This Is The Easiest Exercise For Your Whole Body.

Yes, It's True - This Is Proven To Make You Burn Extra Calories And Lose Weight Fast!

It is impossible to find medical troubles in old Masian tribesmen who walk over 30,000 steps per day without getting tired.

As a nomadic tribe who likely eat high fat, high protein food, it is surprisingly impossible to find any health problems due to the Masai method of walking. Masai walking is like walking on a cloud and is the best exercise which mankind has ever created. Normal walking focuses the weight of the body into each step putting stress on the joints and back because the heel and toe touch the ground at the same time.

The reason the Masai do not feel tired or suffer from backache, even though they have been walking all day long, is due to their unique walking style,

because the roll their foot from the heel to the centre(or arch) to toes during their step.

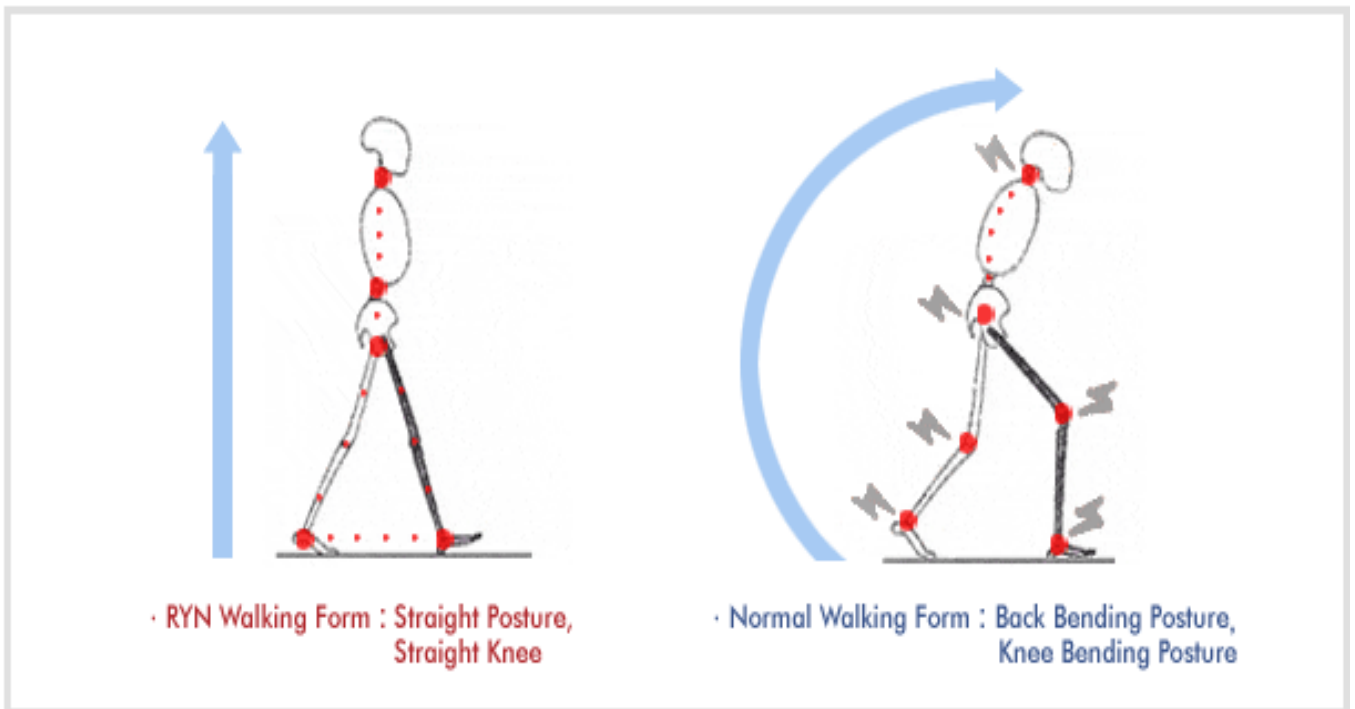

The load is distributed so that it does not put stress on the feet, joints, back and hips.

My ebay shop sells a variety of Ryn Masai Walking Shoes, and when compared to regular walking, they are fully proven to burn more calories when walking, activate more muscles that aren't used and are very

effective in a healthy diet. The 45 degree angle, rounded heel produces a continuous rolling step protecting knee joints as well as correcting the spine, working thigh muscles as well as strengthening and stretching calf muscles. It is a well known fact that walking is good for your whole body. However walking properly is not easy. Walking incorrectly is not much better than not walking at all.

01 Healthy Bodyline Correction Effect, Correct Walking Technique

RYN's round outsole, design with 45 degree angled heel and human body engineering, makes a natural rolling step in the order of heel-middle- tip which leads to a straight and proper posture and helps keep a healthy bodyline.

What People Are Saying...

"Let me tell you, once again, obviously the shoes you make are very special but to me, the personalized treatment that I received from you, made me feel that this was not a mechanized transaction run by robots but had a human involvement and connection. From the consumer's position, that is very important. I don't know if it happens to every client or I just lucked out. If it is not SOP, I urge you to make it so. Thanks again and understand that I have no intention of ever purchasing any other shoes than Ryn and have already started to tell my friends about you. " - Lucy.
UK

"Here is the best feedback I can give you...I bought the first pair more as a trial to see if your claims held true... since then I have purchased my second, third, fourth and fifth pair of your shoes and I expect to be purchasing at least one more pair shortly. As your shoes arrive I give my old MBT shoes to the Salvation Army never to be seen, or worn, again." - Claire Penny
UK

"Shoes fit perfect. Excellent service too." - Simon Parks

"Satisfied with quality and fit. Will order additional shoes in future. I presently own three pairs of MBT's but I think I prefer these." - Jessica Gardner

"I love my Ryn's. I just received my second pair of shoes and they too have exceeded my expectations in both terms of comfort and style. I must say, after wearing MBT'S and other weight loss shoes for over a year, I like yours the best. "- Susan Robinson - UK

"To whom it may concern: The shoes arrived... the box felt very lightweight... the packaging impeccable... they arrived when you said they would. I opened the box and THERE THEY WERE! My shoes! This was the first time I ever bought shoes made to order and I was anxious to try them on. SURPRISE! The shoes fit like a glove..... perfect fit and beautiful... I will order more shoes. Thank you , I had a life before Ryn and there is a life after Ryn... this new life will be like walking on clouds. "- Katherine - Ireland

"Ryn walking Shoes are in a class of their own - finer and more luxurious than any diet shoes I've worn. When I first put them on, I was stopped three times by members of my walking group. Everyone's reaction has been 'those look great, where did you get them' "- M Barnes

"Your shoes are fantastic; I have never had shoes that fit me so well. Thank you for a great job and a fantastic shoe. "- Tracey Powell

"I just obtained my first pair of RYN shoes. The first pair of these type of shoes I bought about 2 years ago. The initial experience on the second pair was the same as the first; they belong to your feet. However, I am more impressed with yours and they feel better than my typical brand. I'm a salesman, lots of trade shows. The shoes are great. Fashionable and Functional. Worth the investment." - Louise UK

"What an excellent pair of shoes! They fit so well and are extremely comfortable. I am so impressed on how well they fit without any breaking in. I'm hooked. "- Nikki Greenwood.

"The Eagle has landed. While you didn't break the land speed record in the process, you did deliver the most comfortable shoes I've ever had on my feet. Incredible workmanship and quality." - Heather Jones.

"I have just received my second pair of your shoes and they are as comfortable as the first. I am a diabetic and have to have shoes that fit correctly, and Ryn is the best I have ever had. You now have a customer for life. My dress shoes, the first pair I bought, get many nice comments on how good they look. Thank you for

shoes that feel like you have been wearing them for a long time the first time you put them on. Again, thank you for a great pair of shoes." - Roxy. UK

"I'm writing to express my deepest gratitude to you for nearly saving my life. Allow me to explain. A little over twenty years ago, I was in a motorcycle accident. Broadsided by a pickup truck, I sustained multiple broken bones, etc. One of the wounds was a compound ankle fracture, which was reasonably mended. But even after all these years, if I have to stand for long periods of time it becomes very painful. My profession as a musician, specifically a bass player, more often than not requires me to stand. Sometimes for 4 or 5 hours at a time, also usually having to load equipment in & out of the venue. The Ryn shoes you made for me are life savers! For the first time in 20 years, I do not dread the expected standing time, for the sake of my feet. Right out of the box, these were the most comfortable shoes I have ever worn. I look forward to the next opportunity I have to wear them. And they are quite good-looking, too. Often I have to wear a tuxedo, and the shoes accessorize nicely. Many of my fellow musicians have commented on their appearance. I've decided I need another pair to wear for the less formal gigs. Thank you for your skill & craftsmanship. No exaggeration: It has changed my life. "- J Conner - Ireland

"Thank you very much for the shoes. I could tell in the first few minutes of wearing the shoes that they were special. They fit like a glove, and provide perfect arch support. I am also completely satisfied with the materials, look, etc. I have been wearing MBT shoes for about a year and love them, but these are cheaper and look better." - Jane Barry.

"I absolutely LOVE the shoes!! I have worn them several times and they fit perfectly. Please send me a catalog. I am interested in ordering another pair. "- Elaina.

"Thanks for the excellent, well-fitting shoes. I appreciate your kind attention to my requests. Keep up the good work." - Debbie Cox.
